

Maths of the week

Time- analogue and digital

What time do you have breakfast? What time do you come to school?

Can you make 6 o'clock on the clock face? Where does the minute hand and the hour hand go? What happens at 9 o'clock in the morning?

Can you make half past 4 on your clock? Where does the hand go?

What time is it on the digital clock? How did you know the hour? How did you know the minute? Can you tell if it is half past?

Also remember to keep practising counting, recognising and writing numbers to 20 and beyond. What's 1 more/1 less?
