

As readers, we will be listening to, enjoying and discussing the following texts to inspire and challenge us in all areas of our learning. There will also be a daily phonics lesson to help us on our journey to become fluent and confident readers.

As writers, we will be writing character descriptions and retelling stories from a character's perspective. We will be learning to use 'and' to join words and clauses. We will also be learning to use adjectives to describe. We will continue to focus on orally rehearsing our sentences before we write them, using capital letters, spaces between words and full stops at the end of our sentences.

There will be opportunities to apply the knowledge and skills we have gained in our reading, phonics and writing sessions during Explore and Learn Time.

As mathematicians, we will be learning about the composition of numbers and exploring addition and subtraction within 10. We will also continue to develop our reasoning and problem solving skills.

We will be helping our children to develop good number sense by teaching daily fluency sessions. This will help them with their confidence and flexibility in working with numbers.

There will be many opportunities to apply our knowledge and skills during our Explore and Learn time.

As scientists, we will be exploring the seasonal changes of winter and spring. We will also be revisiting materials and extending the children's learning by investigating the suitability of everyday materials for different purposes.

As geographers, we will be investigating the streets and buildings of the local area. We will be conducting fieldwork within the locality and speaking to members of the community.

As historians, we will be researching what Kew was like in the past. We will be using evidence such as maps and photographs to investigate how Kew has changed over time.

As artists, we will be making a street scene using collage and mixed media techniques. The pieces will be joined together to create a collaborative piece of art.

As designers, we will be making model homes using basic constructional skills. We will be learning to make our freestanding structures stronger, stiffer and more stable.

As musicians, we will be learning how to identify high and low notes and to compose a simple tune. We will explore some different instruments, as well as investigating how tempo changes help tell a story and make music more exciting.

As athletes, (PE) we will be identifying and learning simple gymnastic shapes and learning to link actions. We will also be learning to throw, hit and catch a variety of balls and objects.

As members of our community, (PSHE), we will be learning about what it means to belong to a community, how people live and work in the community and the importance of keeping safe when communicating online.

As computer scientists, (computing) we will become more familiar with a keyboard and will be learning to use a computer to create and manipulate text. We will also be learning how computers are able to group and present data.

Enrichment

We will be going out into the local area to find out more about where we live. We will also be attending a concert at the Royal Festival Hall performed by the London Philharmonic Orchestra.

School Value Focus

Aspiration

We place no ceiling on what we can achieve and we challenge each other to be the best we can be.
