

Butterfly Class News 1st March 2019

Welcome back after the half term break. We hope you had a good holiday and are settling back into the school routine.

Over the next few weeks, we will focus our learning through the topic 'Animals'. This week we have focused on pets. The children have been encouraged to talk about their pets and the pets their friends and relatives have. They watched a video about a pet shop and imagined what it would be like to visit a pet shop and choose a pet. They followed instructions to make stained glass window fish bowls. These were quite tricky to make, but the children enjoyed making them and they look fabulous! They have begun recording the type of pet they would like to own and what they would need to do in order to care for it. We even had time to make jam tarts.

Each Monday we will be helping the children to write their weekend news every Monday. Please write a note in your child's Home/ School Diary saying what your child has done during the weekend so that we can jog their memories if needed.
